Nissan S15 front

KCA414 special
high tensile bolt
set for maximum
negative camber

Hardened
large tab
washer
designed
to grip.

Can also
be used on
lower mount
for race use.
Get up to -3.75 deg!

The best camber bolt kit on the market?

We think so because....

- The biggest adjustment range, up to +/- 1.75 deg (*On some vehicles.)
- Unlike other "friction" lock designs, we use a positive toothed lock washer which mean NO SLIP.
- Simple to adjust and lock time after time with out slipping.
- A huge range covering:
 - 10mm - KCA410
 - 12mm - KCA412
 - 14mm - KCA414
 - 15mm - KCA415
 - 16mm - KCA416
 - 17mm - KCA417

Supplied as kit of 2x bolt sets with instructions. Refer our alignment products catalogue for full application details

*Up to
1.75 deg
change**
