New product applications summary

Please add the following to your application guides. More details available in the application catalogues and on the website

Spherical Bearing Link Kits

A range of universal and vehicle specific kits to suit most applications. Utilising a heavy duty hardened ball and race with PTFE lining for quiet operation with ends that can be rotated to any angular combination. Designed with a 25 mm centre to centre length adjustment. Specially designed seals keep lubricant in and dirt out.

Ask us about this new range quoting part numbers KLC38 to KLC40 (available in adjustable ranges 60 mm to 360 mm)
