## EVO X

### Adjustable stabilizer bars

**NOW AVAILABLE**

**Front & rear adjustable sway bars for the Mitsubishi EVO X.**

A sway bars objective is to reduce sway, or body roll, and stabilise a vehicle under lateral (cornering) forces. Both the front (BMF55Z) and rear sway bar (BMR84Z) boasts a solid 27mm in diameter, offers 3 points of adjustment which allow their stiffness to be altered by increasing or reducing the length of the lever arms. This permits the roll stiffness to be tuned for different situations without replacing the entire bar. The stiffer the bar, the more force required to move the left and right wheels relative to each other. This increases the amount of force required to make the body roll. Polyurethane bushings are also included with lateral locks finishing off the kit to prevent walking of the sway bar.

Cornering loads are spread more evenly across the tyres delivering more grip and frankly, that's what it's all about. You also get improved tyre wear as your tyres stay flatter and more upright. Comfort improves because your car sits flatter through bends meaning less movement inside the vehicle.

Whiteline Swaybars are part of the Whiteline handling system. Designed to match and integrate with Chassis Bracing and key alignment products to deliver a fully balanced handling solution. Adjustable sway bars allow their stiffness to be altered by increasing or reducing the length of the lever arms.

So without reducing comfort, a Whiteline Swaybar will make your suspension system and tyres perform better, making the car

**KCA395** is designed to raise the front roll-centre geometry of your EVO X, by using specially engineered ball-joints and tie rod ends while still maintaining original steering geometry.

#### WHITELINE BLADE

Whiteline EVO X adjustable sway bars offer 3 points of adjustment allowing in some cases 10 distinct stiffness settings for precise handling bias adjustment

#### Also available for the EVO X

**BMF55Z - 27mm front adj. sway bar**

**BMR84Z - 27mm rear adj. sway bar**

**W0593 - Front lower c/arm - front**

**KCA395 - ROCK - Roll center kit**
