VAG MKV & MKVI

For those new to Whiteline, the brand graces a number performance suspension components that work hard to deliver real results and performance outcomes for VAG vehicles and motorists the world over. Whiteline's primary focus is delivering 'bang for your buck' handling gains from the simplicity of an anti sway bar. But over the years, the expertise, the knowledge, the reputation and the products have progressed to include additional offerings such as the range of infamous anti lift/caster kits, roll centre adjuster kits, adjustable control arms, camber kits, strut and chassis bracing.
