

Widely regarded as the brand of choice for performance suspension components, leading manufacturer Whiteline are pleased to announce a range of Performance Springs to complement its existing product offering.

Lower that centre of gravity.

Whiteline Springs deliver improved vehicle performance whilst maintaining safety and ride quality characteristics. By lowering the vehicles centre of gravity, the unique combination of linear and progressive rate coil springs not only improve performance but enhance overall appearance. Developed and manufactured in Europe from the highest quality materials, coating and to the finest tolerances guaranteeing exact fitment. Whiteline Springs are engineered for optimal balance with OEM and aftermarket shocks. For total grip activation match with Whiteline Sway Bar and Essentials kit for unrivalled handling and optimal vehicle performance.

The Whiteline difference.

Using a range of sophisticated testing and data logging tools, Whiteline rely on rigorous testing to maximise the product benefits and ensure that they work as a complete package tuned to give you the best handling outcome. Whiteline has the products and practical experience to maximise the potential of your vehicle whether it be a daily driver, street performance or motorsport vehicle and guarantees a quality, tested and tuned outcome using Whiteline products.

Comprehensive range.

Whiteline's product range includes Adjustable Sway Bars (Anti-Roll Bars), Strut and Chassis Bracing, Roll Center & Bump Steer Correction kits, Camber & Toe kits, Caster kits, Chassis Control Bushing Kits and the well-renowned Anti-Lift Kits. Engineered to activate more grip for improved handling and outright performance, Whiteline products are rigorously tested on the track to provide unrivalled street performance!

Brand loyalty.

With heritage and headquarters in Australia, Whiteline have earned a global reputation for market leading products that deliver significant gains in vehicle balance, steering precision, grip levels and outright driving performance.

Whiteline products provide automotive workshops, tuners, enthusiasts and racers with innovative solutions to suspension and handling problems while delivering proven performance and problem solving outcomes for many of the worlds vehicle platforms.

The brand best known for "Activating More Grip" has developed a cult following across the globe and is highly respected within the automotive aftermarket community.

Whiteline's objective has always been to market a full range of undercar chassis and suspension components that complement your existing damper/ shock absorber set up. Adding performance springs to the product range further advances Whiteline's ability to achieve that goal. Simply, it is a tuned system and not a collective of various brands.
