

We could rave on how good the Whiteline range is, but at the end of the day, you, the customer will be our judge. Our world-wide growth is due to the positive delivery of performance handling solutions. These are just a few comments about the solutions Whiteline have provided... They said it, not us.

The world is flat out

WHITELINE
Flat out

"The lower control arm brace has made the single biggest impact for my mind on the cars feel. FLAT is all I can say!

Bravo, job well done Whiteline team." (Germany)

"I am concerned no more. The springs arrived and I installed them. All I can say is WOW! The ride height looks very good. The performance is over the moon! I have only gotten the ft bar in but with that, the camber kit, ft and rear spring and the alignment setting my Honda handles like it is on RAILS!. I can send you guys pictures if you would like, and a more detailed "recommendation" for your web site.

Thanks again for the great service!" (NY USA)

"I have an S14 Nissan 200SX which doubles as my everyday and club sprint car. Up until coming across your article on improved handling, I was very frustrated with my cars handling on the track. I had a caster / camber kit and lowered springs fitted by so called specialists, which made little difference, and I could not get any solutions to my problem. It was pure luck I stumbled across your article and it spoke of the very problems I was having, so I promptly had your 'works' kit fitted and WOW! My S14 is now a totally different car I can drive through any corner at almost any speed, with complete confidence and 'feel' for where it is going and when it will let go.

So ... thanks for putting the time and effort into a handling kit for my type of car.... it works!" (WA Australia)

REALLY SERIOUS?

The Whiteline Group Series range of shocks offers performance at all levels. But if you're looking for real road performance get excited about our all new Group 4 shocks. We're talking serious stuff. These are height and rate adjustable with no need for yearly maintenance (unlike others) that's right, maintenance free. You can have it all...if you're serious.

PERFORMANCE SUSPENSION

Whiteline products are now available worldwide via a group of international dealers or through our web store located at www.whiteline.com.au/store. We ship worldwide.
