Lower retail pricing on key adjustable swaybars

Some great news we thought you'd like to know about. Thanks to increases in volume coupled with new production equipment, we can reduce the price of many popular Blade adjustable swaybars.

Traditionally all Whiteline Blade adjustable swaybars have belonged to price category D but Effective 1st August 2004, the following list of popular adjustable applications will be moved to swaybar price category C, a reduction of nearly 12%. All the normal net buy prices as detailed in previous correspondence will apply as per category C and the next version of swaybar catalogue will reflect these changes in print.

For price file sorting or database administration using Whiteline supplied data, stock group codes for the various price categories are:

- MA1 - Price category A - 1st August rec retail \$143
- MA2 - Price category B - 1st August rec retail \$183
- MA3 - Price category C - 1st August rec retail \$228
- MA4 - Price category D - 1st August rec retail \$258
