

WHITELINE

Whiteline Combined Catalogue V3.0 released

Flat out

After many months of work we are pleased to release the new Whiteline combined application catalogue V3.0.

The main difference is that all parts for the one vehicle are now listed together, no more flicking through three different sections for just one car.

The page on the right shows the current layout but the enclosed has an explanation (page 5) of how to use and interpret the new format. **Check out bottom of page 1 for easy ordering instructions.**

A digital PDF version of this catalogue is already on the website at www.whiteline.com.au and can be downloaded and printed at any time. This will be updated as soon as it changes so its the best place to get the latest version. Within the next month we also expect to release the software version that will allow you to search our database on your computer.

Additional printed versions are available in limited quantities so let us know what you would like. We can not guarantee the full quota but we'd like to know the ideal quantity regardless.

Please fax back this sheet with details below or email your request to admin@whiteline.com.au

Name: _____

Ideal quantity: _____

Whiteline Select Application Catalogue Edition 3

Subject to terms and conditions highlighted in full application catalogue and subject to change with out notice.

Loc.	Description	Part No.	Vehicle Kit	Notes
Nissan				
1200 B110-120 67-85 inc early 1000 and 1200 ute				
R	Swaybar-heavy duty	BDH15	1	11.20 wagon ute 16mm
R	Swaybar-heavy duty	BDH23	1	coupe 18mm
120Y B210 4/74-3/79				
F	Swaybar-heavy duty	BDH29	1	18mm
R	Lowering block kit - 1 1/2-Control	KL B50-1	2	exc1 ute
R	Lowering block kit - 2 Flatout	KL B50-2	2	exc1 ute
R	Swaybar-heavy duty	BDH12	1	16mm
R	Swaybar-heavy duty	BDH33	1	18mm

R	Control arm lower bush kit	RC431	2	
R	Sub-frame align & lock kit	RC431	2	
R	Swaybar to chassis bush kit	WH408	2	
R	Swaybar to chassis bush kit	WH408	2	
R	Swaybar to chassis bush kit	WH408	2	
R	Spring-coil lowering kit-Control	7D149	2	
R	Not yet available	KL C00	1	
R	Swaybar-heavy duty	BNH20	1	
R	Swaybar-heavy duty Blade adjustable	BNH20	1	

Price review 1st July 2006

We have worked hard to keep our costs down while striving to improve overall efficiency to absorb the continuing rises in raw material costs. In particular we are all aware of the increasing costs of energy and petroleum based products while steel and aluminum pricing has risen a minimum 10% in the past 12 months (alloy has increased 25%) even after significant increases in 2004-2005. The impact to our industry sector is therefore compounded with most of our raw materials becoming dearer and our processing costs also increasing.

The continuing growth of the Australian economy and the strength of the jobs market is still adding pressure on labour costs. We continue to invest in equipment and processes to increase our production with similar labour resources reducing overall unit labour costs however this does take time.

Our aim for this review was to maintain our pricing across the board and the good news is that we have achieved that for over 80% of the product range. There are however a handful of part numbers that we have been forced to review and increase quite dramatically. These items are currently either sold below cost or at just barely profitable levels. Unfortunately this is not sustainable while we work to hold costs on other items. Our options were to either discontinue these items or adjust the price to an acceptable though not necessarily ideal level. A list of the key affected part numbers is available upon request.

We will be posting you a new price list around the end of June but can provide an electronic copy around the middle of June, just let us know.
