Commodore VN-VZ Adjustable swaybar link kits Heavy duty spherical rod-end

The **ONLY** true solution to Commodore front swaybar link problems. WHITELINE extra heavy duty spherical rod-end link kits will improve your standard swaybar but are essential for bigger bars. Race proven, adjustable spherical rod-end links coupled with dust caps and heavy duty fitting hardware deliver strong, silent and reliable operation.

Race proven

KLC003

KLC055

Suit Commodore VN-VT '86-'00

Applications:

- | | |
|-------------------------------|---------------|
| Commodore VN-VT '88-'00 front | KLC055 |
| Commodore VX-VY '00-'04 front | KLC003 |
| Commodore VZ '04 on front | KLC004 |

Spherical rod-ends are ideally suited for this application as they allow for twist and angular distortion while still maintaining a direct connection between swaybar and the wheel. VN to VX drivers will particularly benefit with higher effective swaybar rates due to zero compliance links replacing the stock bushed type.

Kits are all supplied with 2x complete sets of adjustable spherical rod-end links assemblies, dust caps, spacers, mounting hardware and comprehensive fitting instructions.
