Whiteline closing for maintenance

Whiteline would rather be out at the track testing our latest products but its time for some much needed maintenance including our computer system.

We will be closing up the factory and warehouse for a few days to get it done and out of the way in the shortest possible time.

Whiteline will close the afternoon of **Wednesday 28th March 2007** and will re-open on **Monday 2nd April 2007**.

We will have limited computer capability that will affect our order processing. It also means that we cannot invoice or despatch product between these times.

We thank you for your patience and apologise for any inconvenience this may cause.
