Suggested wheel alignment specs				Camber(6)	Caster	Toe
Optimum starting setting designed for use with Whiteline kit.				Deg	Deg	mm/side
Front	Touring			-1.0	Max	0.0
	Sport			-1.50	Max	0.0
Rear	Touring			-1.0	n/a	0.5 mm out
	Sport			-1.50	n/a	1.0 mm out

(1)-Height measurement in mm from centre of wheel to guard, +/- 1.5%. Superlow applications with extra rear load can use standard low. Heights only available when using Whiteline specified shock absorbers and may vary with model and options.

(2)-Retail in A\$ includes GST, excl. freight. Special net price for package part number. Valid till 30/6/2003 but subject to change without notice. All kit fitting prices include wheel alignment and are meant as suggestions and are only available when purchasing parts kit from same dealer.

(3)-

(4)-Options: These items not included in package but available as separate item.

(5)-Front insert installation will require cutting of existing strut tube to locate insert, externally adjustable twin tube gas. Rear is replacement twin tube gas shock with external adjustment.

(6)-KCA368 provides up to +/- 1.0 deg change using special eccentric tube. Replaces OE upper control arm outer to hub bush with new polyurethane low compliance type.

(7)-
