Suggested wheel alignment specs				
Optimum starting setting designed for use with Whiteline kit.				
		Camber Deg	Caster(6) Deg	Toe mm/side
Front	Touring	-0.75 to -1.25	L+2.25/R+1.75	0.0
	Sport	-1.25 to -1.75	L+2.25/R+1.75	0.0
Rear	Touring	-0.5 to -1.0	n/a	1mm out
	Sport	-1.0 to -1.5	n/a	1-2mm out

(1)-Height measurement in mm from centre of wheel to guard, +/- 1.5%. Superlow applications with extra rear load can use standard low. Heights only available when using Whiteline specified shock absorbers and may vary with model and options.

(2)-Retail in A\$ includes GST, excl. freight. Special net price for package part number. Valid till 30/6/2001 but subject to change without notice.

(3)-Handling and Works fitting prices include wheel alignment. Fitting and labour prices are meant as suggestions and are only available when purchasing parts kit from same dealer.

(4)-Options: These items not included in package but available as separate item.

(5)-Front/rear struts are complete replacement type. Whiteline adjustable coil-overs feature externally adjustable ride height and shock rate using 40mm mono-tube high pressure gas shock and progressive springs. Suitable for road and race.

(6)-KCA324X provides extra + 0.75 deg static castor and a significant amount of anti-lift.
