Suggested wheel alignment specs				Camber Deg	Caster(6) Deg	Toe mm/side
Optimum starting setting designed for use with Whiteline kit.						
Front	Touring			-0.75 to -1.0	L+3.25/R+2.75	0.0
	Sport			-1.50	L+3.25/R+2.75	0.0
Rear	Touring			-1.0	n/a	1mm out
	Sport			-1.5 to -2.0	n/a	1-2mm out

(1)-Height measurement in mm from centre of wheel to guard, +/- 1.5%. Superlow applications with extra rear load can use standard low. Heights only available when using Whiteline specified shock absorbers and may vary with model and options.

(2)-Retail in A\$ includes GST, excl. freight. Special net price for package part number. Valid till 30/6/2001 but subject to change without notice.

(3)-Handling and Works fitting prices include wheel alignment. Fitting and labour prices are meant as suggestions and are only available when purchasing parts kit from same dealer.

(4)-Options: These items not included in package but available as separate item.

(5)-Front insert installation will require cutting of existing strut tube to locate insert, externally adjustable. Rear is replacement shock with internal adjustment.

(6)-KCA317A provides extra + 0.75 deg static castor and a significant amount of anti-lift.

(7)-Whiteline coil-over kit featuring adjustable ride height over 60mm, road/race progressive rate springs, large 40mm ID mono tube high pressure gas adjustable shock.
