SUGGESTED WHEEL ALIGNMENT SETTINGS				Camber (5)	Caster	Toe
Optimum starting setting designed for use with Whiteline kit.				deg	deg	mm/side
Front		Touring		-0.75 to -1.25	P+9.0 / D+8.5	0.0 to 0.5 toe-in
		Sport		-1.5 to -2.0	P+9.0 / D+8.5	0.0 to 0.5 toe-in
		Race		-2.5 <	P+9.0 / D+8.5	0.0 to 0.5 toe-in
Rear		Touring		-1.25 to -1.5	n/a	1.0 to 2.0 toe in
		Sport		-1.5 to -2.0	n/a	0.5 to 2.0 toe in
		Race		-2.0 <	n/a	0.5 to 2.0 toe in

(1)-Height indicates measurement in mm from centre of wheel to guard, +/- 1.5%. Superlow applications with extra rear load can use standard low rear. These heights only available when using Whiteline specified shock absorbers.

(2)-Special kit price in A\$ including GST. Fitting hours are an estimated guide including wheel alignment. May only be available when purchasing and fitting kit with same dealer. All prices quoted valid till 30/6/2005 but subject to change without notice.

Handling Pack: Front swaybar replacement requires lowering of front cross member and removal of control arms and radius rods. Rear swaybar fitment best done after lowering front of rear cross member. Strut brace fitment requires some drilling.

Sports Pack: Shocks are straight forward replacement units but camber toe kit best fitted after lowering front of rear cross member.

(3)-Options: These items not included in package but available as separate item.

(4)-Front shocks are a twin tube gas sport rated replacement strut leg with special shortened body. Rear shocks are mono-tube gas sport rated type with shorter travel

(5)-KCA384 kit replaces rear trailing arm bushes with eccentric adjusters. Includes 4 bushes and 2 tubes and all necessary fitting hardware. Suggested wheel alignment settings only available with KCA384 kit.

(6)- Whiteline XRD race products and extra heavy duty options must be used with extreme care. Certain performance modifications like differential changes can dramatically affect vehicle behaviour making certain parts unsuitable. Other parts should not be used unless additional chassis strengthening has been provided and the user accepts that Whiteline can not be responsible for resultant damage to the vehicle, particularly in race use. Should only be used after consultation with a reputable suspension tuner. Contact Whiteline for more details. (www.whiteline.com.au)
