Rear	Touring			-1.0 to -1.25	n/a	0.0 to 1.0 toe-out
	Sport			-1.25 to -1.5	n/a	0.0 to 1.0 toe-out
	Race			-1.75 <	n/a	0.0 to 1.5 toe-out

(1)-Height measurement in mm from centre of wheel to guard (CWTG), +/- 1.5%. Superlow applications with extra rear load can use standard low. Heights only available when using Whiteline specified shock absorbers and may vary with model and options.

(2)-Special kit pricing may be available. Fitting hours are an estimated guide including wheel alignment but does not include race setup or corner weighting. Contact Whiteline or dealer for current pricing.

(3)- Whiteline XRD race products and extra heavy duty options must be used with extreme care. Certain performance modifications like differential changes can dramatically affect vehicle behaviour making certain parts unsuitable. Other parts should not be used unless additional chassis strengthening has been provided and the user accepts that Whiteline can not be responsible for resultant damage to the vehicle, particularly in race use. Should only be used after consultation with a reputable suspension tuner. Contact Whiteline for more details. (www.whiteline.com.au)
