(1)-Height indicates measurement in mm from centre of wheel to guard, +/- 1.5%.

Superlow applications with LPG can use standard low rear. These heights only available when using Whiteline specified shock absorbers.

(2)-Price in A\$ includes GST, excl. freight. Special net price for package part number.

(3)-Handling and Works fitting prices include wheel alignment. These rates only available when purchasing parts kit from same dealer.

(4)-Options: These items not included in package but available as separate item.

(5)- 1300902 front inserts are extra heavy duty sport rated with external adjustment. 1100312 rear shocks are adjustable gas extra heavy duty, valving is sport rated.

(6)-KSB500A is mid mount across engine, KSB501A mounts behind engine to clear induction system, will not suit VN-VP with air con.

(7)-Alignment suggestions only achievable using Whiteline kit.
